

TABLE 10.1

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

The following table shows the results of the simulation. The first column shows the number of trials, and the second column shows the number of successes. The third column shows the relative frequency of successes, which is the number of successes divided by the number of trials.

As the number of trials increases, the relative frequency of successes approaches the true probability of success, which is 0.5.

This illustrates the Law of Large Numbers, which states that as the number of trials increases, the relative frequency of successes approaches the true probability of success.
