1. **Introduction**

The purpose of this study is to investigate the effects of the proposed system on the performance of the participants.

The study was conducted in a laboratory setting with a sample of 20 participants. The results of the study are presented in the following sections.

The first section describes the methodology used in the study, including the experimental design and the data collection process.

The second section presents the results of the study, including the mean scores and standard deviations for each condition.

The third section discusses the implications of the findings and the limitations of the study.

The fourth section concludes the study and provides a summary of the main findings.

The fifth section provides a list of references used in the study.

The sixth section provides a list of appendices used in the study.

The seventh section provides a list of figures used in the study.

The eighth section provides a list of tables used in the study.

The ninth section provides a list of footnotes used in the study.

The tenth section provides a list of acknowledgments used in the study.

Blurred text line, likely a title or subtitle.

Blurred text block, possibly a short paragraph or a list item.

Blurred text block, possibly a short paragraph or a list item.

Blurred text block, possibly a main paragraph or a list of items.
