1. **Introduction**

The purpose of this study is to investigate the effects of the proposed system on the performance of the participants. The study was conducted in a laboratory setting with a sample of 30 participants.

2. **Method**

The study was conducted in a laboratory setting with a sample of 30 participants. The participants were divided into two groups: a control group and an experimental group.

3. **Results**

The results of the study showed that the proposed system had a significant positive effect on the performance of the participants. The experimental group performed significantly better than the control group.

4. **Conclusion**

5. **References**
