

The diagram illustrates the dimensions of the box. The top flange has a width of 200 mm, the main body has a height of 100 mm, and the bottom flange has a width of 200 mm.

The box is designed to hold a component that is 100 mm high. The top flange is 200 mm wide, and the bottom flange is also 200 mm wide. The main body of the box is 100 mm high, providing a clear space for the component.

The box is made of a material that is 100 mm thick. The top flange is 200 mm wide, and the bottom flange is also 200 mm wide. The main body of the box is 100 mm high, providing a clear space for the component.
