

QUESTION

Year	Revenue
2010	100
2011	110
2012	120
2013	130
2014	140
2015	150
2016	160
2017	170
2018	180
2019	190
2020	200

Revenue is expected to continue to grow at the same rate through 2025. The company is considering two investment opportunities that would increase revenue by 10% starting in 2021.

The first investment would require an initial outlay of \$10 million and would increase revenue by 10% starting in 2021. The second investment would require an initial outlay of \$20 million and would increase revenue by 10% starting in 2021.

The company's cost of capital is 10%. The company is considering the two investment opportunities and wants to know which one is more profitable. The company is also considering the possibility of not investing in either opportunity.

The company's revenue is expected to grow at a rate of 10% per year. The company's cost of capital is 10%.
