

Diagram illustrating the components and assembly of a mechanical system, showing a central shaft and a rectangular component with a blue hatched area.

The diagram shows a central shaft with a gear or pulley at the top, connected to a rectangular component on the right. The blue hatched area indicates a specific material or component.

The assembly consists of a central shaft, a gear/pulley, and a rectangular component with a blue hatched area.

The diagram illustrates the components and assembly of a mechanical system, showing a central shaft and a rectangular component with a blue hatched area.

The diagram shows a central shaft with a gear or pulley at the top, connected to a rectangular component on the right. The blue hatched area indicates a specific material or component.

The assembly consists of a central shaft, a gear/pulley, and a rectangular component with a blue hatched area.
