

REPORT

1. Introduction
2. Methodology
3. Results
4. Discussion
5. Conclusion

The following table shows the results of the experiment. The data indicates a significant increase in the rate of reaction when the concentration of the reactants is increased.

The results of the experiment are summarized in the table below. The data shows that the rate of reaction is directly proportional to the concentration of the reactants.

The following table shows the results of the experiment. The data indicates a significant increase in the rate of reaction when the concentration of the reactants is increased.

The following table shows the results of the experiment. The data indicates a significant increase in the rate of reaction when the concentration of the reactants is increased.
