Figure 1: A technical drawing showing a multi-view projection of a mechanical part. The drawing includes a top view, a front view, and a side view. The part is a cylindrical component with a complex internal structure and a flange-like top section. The drawing uses various line styles to represent different features: solid lines for visible edges, dashed lines for hidden edges, and thin lines for dimension lines and labels. The part has a cylindrical main body with a flange-like top section. The drawing is highly detailed, showing the geometry of the part from multiple perspectives.
